LEARNING OUTCOMES

1. Communicative Proficiency:

Students will have the skills necessary to carry on very elementary conversations in their language(s) of study.

2. Analytical Ability:

Students will create basic original thoughts in their language(s) of study. Students will gain knowledge of the structure of the language(s) and will therefore be able to use the vocabulary learned to form new thoughts and basic sentences. This ability will grow as students become more and more familiar with the structure of the language(s) of study.

3. Cultural Understanding and Acquisition of Knowledge:

Students will gain a greater understanding of and appreciation for cultures in which the language(s) of study are spoken, particularly in terms of geography, demography, and the vast differences between the target culture(s) and U.S. culture.
